

Invoice and Payment Policy

Purpose: Defines controls for invoice processing and supplier/customer payment tracking.

Invoice Validation

Invoices should be checked for supplier information, amount, invoice status, and relevant transaction details.

Status Tracking

Invoices should have a clear processing status so outstanding items can be identified.

Payment Processing

Payments should be processed only after required validation and approval activities are complete.

Duplicate Prevention

Processes should identify potential duplicate invoices or payments before execution.

Reconciliation

Payment information should be reconciled with the associated financial records.
